

Presaturated wipes with a solvent-based cleaning solution to prepare surfaces for bonding. SOCOSOLV FD+ was specially designed to reduce drying time as much as possible after preparing surfaces in order to optimise bonding or sealant application procedures.

- This effective cleaner and degreaser guarantees a surface free from impurities. Very fast evaporation.
- Non-corrosive on metals, including light alloys.

## USES

Preparing surfaces in bonding workshops or on assembly lines.

- Specially designed to prepare surfaces for bonding or applying sealants to all types of materials.
- It degreases metals, epoxy/carbon composites and thermoplastic materials before painting or bonding.
- It removes excess, spills or runs of paint, glue or joint bonder.

Can be used on painted and unpainted surfaces, composites, glass or polycarbonate.

## DIRECTIONS FOR USE

SOCOSOLV FD+ is available as presaturated wipes.

SOCOSOLV FD+ is available in rolls of 130 wipes (14x15 cm) or 65 wipes (15x28 cm).

As the product is highly volatile, the roll in pouch must be used with SOCOMORE MM canisters only.

## TECHNICAL CHARACTERISTICS

Appearance .....	clear liquid
Density .....	(at 20°C/68°F) 0.785
Evaporation rate (NFT 30301) (n-Butyl acetate=1) .....	1.4
Halogenated hydrocarbon content .....	zero
Flash point .....	(ISO 13736) 14°C/57°F

## PRECAUTIONS FOR USE AND STORAGE

For more information regarding the danger of the product, please consult the product safety data sheet

according to local regulation.  
For professional use only.
